THE GRAND SCALE: NEW WATERCOLOURS

BY ALEXANDER CRESWELL

6TH OCTOBER TO 4TH NOVEMBER 2006

This is Alexander's third exhibition in New York. Whether you can come to the show or not, I would love you to see these remarkable paintings.

This is the first exhibition of some of the largest watercolours ever painted, some up to 9 feet long. Their size has presented huge technical challenges and yet their sense of spirit & light is stronger than ever. The results are extraordinary.
